## The VT Castlebay UK Equity Fund

The VT Castlebay UK Equity fund is unconstrained and invests a minimum of 80% in UK listed companies with the flexibility to have a maximum of 20% in either cash, fixed interest securities or overseas equities.

### Our Aim:

Our aim is to generate a return in excess of inflation (CPI) plus 4% annually over a rolling three year period. We seek to deliver a total return of income and capital growth by investing in high quality companies at attractive valuations for the long term.

Our investment process focuses on companies with:

- A Valuation Margin of Safety.
- An Operational Margin of Safety.
- Strong cash flows.
- High returns on capital employed.
- Good operating margins
- Low or no debt

• We invest in high quality companies which have the ability to compound their returns over time for the benefit of their shareholders, an aspect often ignored by the market.

• We invest for the long term, we do not speculate on short term share price movements

• We invest on a bottom up basis, only once a company has passed our investment process

• We invest in a conviction portfolio of between 20-30 high quality companies.

• We levy transparent management fees which are capped & aligned to long term performance

Our quarterly investor letter highlights any changes to our fund.

Quality Table	Castlebay Fund	Market
