[^]Portfolio Turnover Ratio (PTR) calculated as Purchases or Sales (whichever is less) divided by Average NAV of fund, annualised since inception 28/01/15.

The VT Castlebay UK Equity Fund

The VT Castlebay UK Equity fund is unconstrained and invests a minimum of 80% in UK listed companies with the flexibility to have a maximum of 20% in either cash, fixed interest securities or overseas equities.

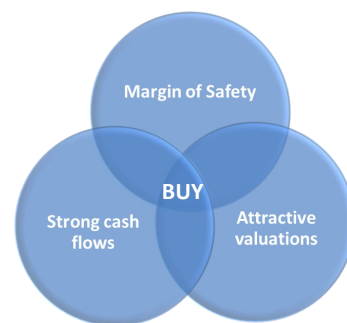

Our Aim:

Our aim is to generate a return in excess of inflation (CPI) plus 4% annually, over a rolling three year period. We seek to deliver a total return of income and capital growth by investing in high quality companies at attractive valuations for the long term.

Our investment process focuses on companies with:

- A Valuation Margin of Safety.
 - An Operational Margin of Safety.
 - Strong cash flows.
 - High returns on capital employed.
 - Good operating margins.
 - Low or no debt.
-
- We invest in high quality companies which have the ability to compound their returns over time for the benefit of their shareholders, an aspect often ignored by the market.
 - We invest for the long term. We do not speculate on short term share price movements.
 - We invest on a bottom up basis, only once a company has passed our investment process.
 - We invest in a conviction portfolio of between 20-30 high quality companies.
 - We levy transparent management fees which are capped & aligned to long term performance.

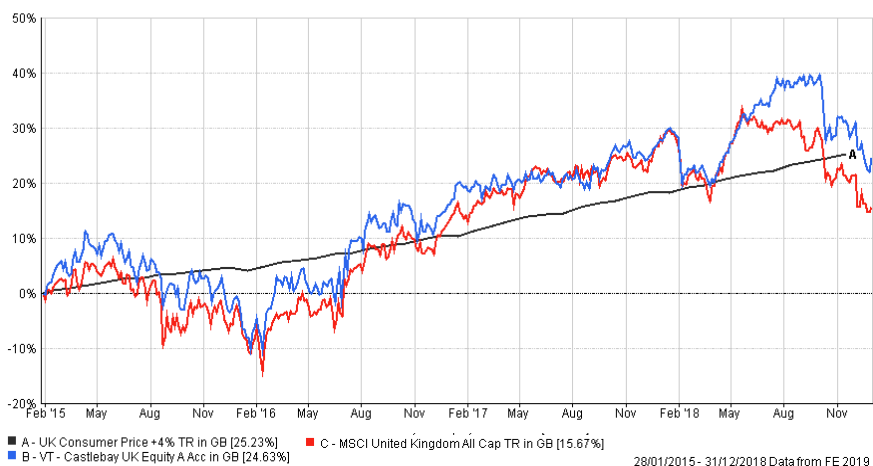

Our quarterly investor letter highlights any changes to our fund.

Quality Table	Castlebay Fund	Market
Return on Equity	41%	25%
Operating profit margin	21%	14%
Net debt to equity	45%	88%
Cash conversion	109%	100%
Free Cash Flow yield	4.0%	4.1%
